

Salinas & Spoundylus Route Birds

This area will cover four ecosystems and more than 7 sites between Mar Bravo, Salinas & Montañita beach as well as Chongon-Colonche forest.

Day 1: 06:30am departure from Guayaquil to Salinas Beach; the salt pool will be the first site where the dikes will provide the opportunity to observe many different species of birds in a large numbers.

A walk along La Chocolatera Cliffs will then follow where you will explore the viewpoints.

After lunch you will continue driving north, passing through several fishing villages. Upon arrival at your hotel in Montañita village you will have time to observe forest birds, watch the sunset and enjoy dinner.

Day 2: Today will be an early wake-up for birdwatching at another site called Chongon Forest; breakfast and birding until lunch time.

Check out and return to Guayaquil.

The excursion includes:

- Lodging: In base to double room
- Private transportation
- Staff: birdwatching guide & driver
- Meals: 1 breakfast, 2 lunches & 1 dinner
- Equipment: scope & bird checklist
